Information about Zoom Meetings

Services and meetings are conducted via Zoom Video Conferencing Platform

Zoom is based online where you can access with just a quick easy set up on your computer.

Before a scheduled meeting, download Zoom on your internet-enabled device by using this link: https://zoom.us/download. (I recommend taking this step at least a few minutes before the start of your first Zoom event.)

Once your session or meeting is scheduled, you will receive a notification similar to the notification below (Note: In an actual invite, the X's below list the meeting number):

(Person) is inviting you to a scheduled Zoom meeting.
Topic: Service/Meeting
Time: (Month, day and time) Pacific Time (US and Canada)

As you can see, Zoom meetings can be accessed via your phone or computer or you can dial the location via the info listed.

To access the online option, click on the Zoom meeting URL or bring up https://zoom.us/join in your web browser and add the meeting number to the 'Join Meeting' option.

Once you are logged in, you can choose to use the video (much better experience) or turn the video option off.

Just click on the Stop Video button to turn off your camera. Click on the Mute button should you need to mute your microphone.
